IV Combined Ocean Outfall Data

Data Summaries.

This section presents the results of analyses of the South Bay Wastewater Reclamation Plant/International Wastewater Treatment Plant Combined Outfall (SB_ITP_COMB_OUT) for 2006.

^{* =} Contamination from newly-purchased solvent bottle; data for this compound will be considered not reportable for this batch and for review only.

^{# =} Bis(2-ethylhexyl)phthalate was detected in the blank of this batch at a level just above the detection limit. It is suspected that a source within the laboratory contributed to blank contamination. The source of the internal Bis(2-ethylhexyl)phthalate contamination is continuing to be investigated. Please see note at the end of quarterly report.
